Learning, Teaching and Assessment Strategy

The focus is on the application of knowledge and active learning during in class time with students acquiring knowledge independently and outside class time with the assistance of guided reading and drop-in tutorials using a team-based learning approach rather than the traditional lecture/tutorial model. Whilst there will be an initial and some consolidation lectures, (LO1) the majority of in class time will be devoted to workshops. These will incorporate both formative and summative assessment, group discussions, feedback and mini lectures. You will be assessed both individually and in teams on your core knowledge using primarily multiple choice questions (LO1, LO3, LO4 & LO5) and on your application of knowledge in team application exercises (LO1, LO2, LO3, LO4, LO5 & LO6) using both multiple choice questions and some written individual and/or team answers. There will also be an end of module exam including a seen case study which will assess your individual knowledge, application and written communication skills (LO1, LO2, LO3, LO4 & LO6). Learning will be supported via the virtual learning environment (VLE) and sustainable development aspects of social and economic justice and cultural diversity will be incorporated into this module.
