Module Aims

To provide you with an opportunity to apply the knowledge, understanding and skills gained on your course in a professional setting; to help you develop autonomy and initiative, and work effectively as a member of a professional team; to help you gain experience of the working environment and assess career opportunities available on graduation; to encourage critical reflection on your personal and skills development.

Outline Syllabus

There is no defined syllabus and professional placements are made available by voluntary co-operation of companies and other organisations. The responsibility lies with you to

identify the placement opportunity, with support from relevant parts of the university. The placement activity must be agreed by the Faculty. The activities and duties whilst on placement will depend to a large extent on the particular nature of the business/profession whilst on placement. Relevant opportunities exist in a variety of areas including government, financial services, administration, marketing, business services and charitable and non-governmental organisations. Irrespective of the nature of placement work, it is a normal expectation that whilst on placement you would develop and demonstrate communication skills through reports and orally to supervisors and senior managers, and do so independently and as part of a team, and to tight deadlines.
