 - d. quantitative and qualitative idea definition and development;
 - e. communication skills through having expressed your ideas and arguments in a clear and unambiguous manner.

Learning, Teaching and Assessment Strategy

This is the final element of the Master's degree and students determine the specific subject area that they want to focus on for their dissertation/project, as such it furthers students' knowledge and skills in the subject areas that are chosen by the students. There are three stages of learning and teaching that support the students to succeed in this component. 1) Introduction stage: all students will be introduced to the concept of dissertation, resources available to them and the requirements in the induction week, plus attending a dissertation topic fair in November. 2) Developmental stage: Students are required to take the Research Methods module in semester two and acquired the knowledge and skills they need for developing a research proposal. 3) Mentoring and implementing stage: A supervisor is allocated to each student and mentoring the students throughout the process of developing and completing their dissertation/project. Seminars and workshops relating to research instruments and skills are provided to all students at the Faculty level as well as in the City campus. The LTA strategy is designed central to achieving an independent learning and an advanced knowledge and skills develop that is unique to each student of their aspiration. The trainings are provided by lectures and practical work, both individual and group. This addresses Learning Outcome of 1a, 1b & 2a, 2b, 3a.3b & 3c. As the project develop students will gain feedback from a member of academic staff/supervisor on their research proposal and develop their research and complete their dissertation.

Mode of Assessment
