Tutorials	2
Laboratory	18
Directed Study	249
Other (DO NOT USE)	21
Examinations DO NOT USE	2

Availability Periods

Occurrence	Location/Period
BDA	University of Bradford / Semester 1 (Sep - Jan)
BDA	University of Bradford / Semester 2 (Feb - May)

Module Aims

Students will gain bespoke skills and competencies associated with their area of practice. They will develop an understanding of subject specific principles for Enhancing Contemporary Midwifery Practice for all child bearing women. Clinical skills in assessment

will be developed in order to undertake safe examinations amongst specified client groups, with the ability to demonstrate higher level clinical reasoning and problem solving.

Outline Syllabus

Case histories drawn from practice, covering a range of normal anatomy/ physiology and pathological changes. Face to face/ on line teaching materials around assessment of systematic anatomy and physiology and deviations from the norm. Problem solving and clinical decision making. Ethical, legal and professional issues around extending roles. Protocols, procedures and guidelines. Auditing of practice. Critical reading skills. Utilising research evidence to inform best practice.

Module Learning Outcomes

On successful completion of this module, students will be able to...

- 1 1.1 Identify and critically discuss deviations from the norm in the clinical examination of a client.
 1.2 Critically evaluate best practice in managing deviations from the norm, when considering research evidence, policies and guidelines.
- 2 2.1 Demonstrate the ability to make appropriate referrals, with a differential diagnosis.
 2.2 Critically analyse and synthesise the barriers and benefits to nurses/ midwives taking on extended roles.
 2.3 Critically reflect on the professional, ethical and legal issues around taking on an extended role, including professional accountability.
- 3 3.1 Demonstrate professional relationships with clients and other health professionals.
 3.2 Utilise advanced problem solving and clinical decision making skills when managing cases

Learning, Teaching and Assessment Strategy

Teaching is informed by research throughout the module content. It is contained within a series of face to face/ online teaching, and activities to encourage critical thinking skills. Teaching material will also support learning around physiology, pathophysiology, client assessment and relevant pathways of care as well as the wider professional issues around extending roles. Practical workshops are provided by the lead clinicians who will share expertise and help develop your skills in the principles of newborn/6-8 week examination. Face to face/ online personal tutorials will develop academic skills and provide ongoing formative feedback on progress. These can be booked by mutual agreement. You will also have the opportunity to practice the OSCE assessment on line/ face to face

D/Study - relates to materials to aid your learning. A significant part of the program is spent undertaking work-based learning activities. You will have a clinical supervisor who will be responsible for identifying key learning activities, aiding your clinical skill development and reviewing your clinical practice and collecting evidence to complete your logbook.

Other relates to additional self-directed optional clinical opportunities that will assist your learning.

There are three modes of assessment

The OSCE- is series of stations in examination conditions that will assess LO 1.1,2.1,3.1,3.2

The case study or audit on a client and condition of your choice to achieve outcomes:

1.1,1.2,2.2,2.3

Clinical logbook skill focused activities will be signed off of by your trainer: 2.1,3.1,3.2

Mode of Assessment

Type	Method	Description	Length	Weighting	Final Assess'
Summative	Examination - practical/labory	Objective Simulated Structured Clinical Examinations	2 hours	50%	Yes
Summative	Coursework	A case study or Audit (2500 words)	0 hours	50%	No
Summative	Coursework	Log book of clinical competencies (pass/fail); to be submitted before undertaking OSCE exams	0 hours	%	No

Legacy Code (if applicable)
