Cultures; promoting open, learning cultures, introduction to community matrons, nurse practitioners, clinical nurse specialists. Working in and with teams, delegation. Leading service delivery, over-coming barriers.

Module Learning Outcomes

On successful completion of this module, students will be able to...

- 1 Contribute to the education and training of, individuals, families and carers using a range of theory, media and technology to support learning and behaviour change
- 2 Demonstrate clinical skills required to manage long term, physical and mental health conditions and learning disability conditions
- 3 Describe systematic methods of assessing and minimising/ management of risk to an individual
- 4 Demonstrate effective resource management, including safe medicines stock management in a variety of settings
- 5 Recognise and respond to variations in levels of care and outcomes of care
- 6 Demonstrate team-working, leadership and awareness of learning culture in the provision of a healthy, safe and productive environment for work and care
- 7 Reflect on personal and professional development and record in reflective portfolio

Learning, Teaching and Assessment Strategy

You will undertake planned, supervised and supported practice placement learning to enable you to meet the learning outcomes (LO) for this module and will demonstrate safe and competent practice commensurate with the stage through the achievement of clinical skills. These will be underpinned by supporting theory. Research informed lectures, seminars, group discussion and directed reading, will build-on and consolidate knowledge gained within the Leadership for care delivery module (LO 1, 2, 3, 4). Small group, peer reviewed simulated clinical skills teaching will enable you to practice skills in a safe and supported learning environment (LO 5 & 6). Module content will reflect contemporaneous healthcare practice. You will be prepared to participate in compassionate and safe care delivery within the practice setting, described as 'Clinical Placement' in the hours (LO 1, 2, 3, 4, 5, 6, 7). In addition you will have the opportunity to consolidate your learning through your training role in the practice environment. You will document your progress in practice using an assessment document and reflective portfolio which will inform your on-going professional

development (LO 7). The VLE will be used to provide access to online resources, lecture notes & external links to websites of interest.

All LO will be met using mode of assessment 1 and 2.

Mode of Assessment

Type	Method	Description	Length	Weighting	Final Assess'
Summative	Coursework	Essay: Reflection on the Nursing Associate role (Must Pass at 40%)	0-1000 words	100%	Yes
Summative	Coursework	Practice Assessment Document: Comprising standards and competencies (Pass/Fail)		%	No

Legacy Code (if applicable)
