

Cervical Screening (Level 5)

Module Code:	REH5001-C
Academic Year:	2018-19
Credit Rating:	30
School:	School of Allied Health Professions and Midwifery
Subject Area:	Reproductive Health
FHEQ Level:	FHEQ Level 5

Pre-requisites:

Co-requisites:

Contact Hours

Type	Hours
Lectures	18
Tutorials	5
Laboratory	7
Directed Study	140
Other (DO NOT USE)	130

Availability Periods

Occurrence	Location/Period
BDA	University of Bradford / Semester 1 (Sep - Jan)
BDA	University of Bradford / Semester 2 (Feb - May)

Module Aims

To enable practitioners to develop the requisite skills and theoretical knowledge to undertake cervical screening competently. To audit personal practice in line with the national requirements for cervical screening. To examine and apply policies and to consider their relevance in relation to health, risk and screening ethics

Outline Syllabus

Cervical screening techniques and protocols. Auditing and managing a service. Anatomy and physiology of the female reproductive tract. Pathologies associated with cervical screening. Risk factors including sexually transmitted infections, in particular (HPV) Health promotion and lifestyles. Care of women undergoing screening/compliance and non-compliance. Social implications of screening, political interventions and impact of bad publicity. Current research findings and application to the clinical context. Psychological factors associated with misdiagnosis or referral for further investigation. Undertaking an audit of practice and compiling a report.

Module Learning Outcomes

On successful completion of this module, students will be able to...

- 1
 - 1.1 Apply knowledge of anatomy and physiology of the cervix to pathological conditions related to cervical screening.
 - 1.2 Discuss the aetiology of cervical cancer
- 2
 - 2.1 Demonstrate safe and effective clinical skills in collecting cervical screening samples and manage the results.
 - 2.2 Utilise literature to evaluate practice and the potential societal effects of screening woman.
- 3
 - 3.1 Analyse through an audit of practice the effectiveness of cervical screening programmes in your practice area, collecting data and compiling a report.

Learning, Teaching and Assessment Strategy

The programme will be delivered over a series of 4 study days, Lectures and seminars: Will provide students with the opportunity to acquire the information to enhance their knowledge of all areas related to the NHS cervical Screening programme (NHSCSP)(Learning Outcomes 1.1, 1.2, 2.2, 3.1)Laboratory/Practical: involves visits to the local Cytology pathology laboratory and Colposcopy clinics to gain an understanding of their role in the NHSCSP (Learning outcome 1.1)Clinical workshops will allow you to develop the skills required to collect adequate cervical samples (Learning Outcome 2.1)Directed study : Will provide students with the opportunity to read key texts to support assignment development and access online materials and tutorials provided by the Learning development Unit.(Learning Outcomes 1.1,1.2, 2.2, 3.1)Other: Will provide you with the opportunity to undertake directed practice and other work based learning activities as defined in the clinical skills logbook (Learning Outcomes 2.1, 3.1) Assessment: Learning outcome 2.1 is assessed via the clinical portfolio. Learning outcomes 1.1, 1.2 and 2.2 are assessed via the case study. Learning outcome 1.1, 1.2, 1.3 3.1 is are assessed via the audit of personal practice.

Mode of Assessment

Type	Method	Description	Length	Weighting	Final Assess'
------	--------	-------------	--------	-----------	---------------

Summative	Coursework	2500 word. Audit of clinical practice against national standards		100%	No
Summative	Clinical Assessment	Complete a clinical portfolio demonstrating all regional requirements for practice & evidence from the online tests Pass/Fail	0 hours	%	Yes

Legacy Code (if applicable)
