

Research Methods for Social Workers

Module Code:	SOW7001-B
Academic Year:	2018-19
Credit Rating:	20
School:	School of Social Sciences
Subject Area:	Social Work
FHEQ Level:	FHEQ Level 7 (Masters)

Pre-requisites:

Co-requisites:

Contact Hours

Type	Hours
Lectures	24
Tutorials	6
Directed Study	170

Availability Periods

Occurrence	Location/Period
BDA	University of Bradford / Semester 1 (Sep - Jan)

Module Aims

To equip you with the knowledge and methodological skills required to plan a Social Work practice-based research project.

Outline Syllabus

Understanding the relationship between Social Work research, policy and practice;
Developing literature searching and reviewing skills; Designing a research project and developing research questions; An introduction to qualitative, quantitative and mixed methods designs with research illustrations; Data collection methods and data analysis techniques; Research ethics; Informed consent and engagement of participants; Research

with vulnerable populations; Considering issues of diversity; Guidance for developing research project assignments.

Module Learning Outcomes

On successful completion of this module, students will be able to...

- 1
 - a) demonstrate your ability to critically review literature
 - b) demonstrate your ability to select a project, determine the most suitable methods and consider the ethical issues
 - c) demonstrate your ability to communicate the purpose of the study and what will be involved to participants to ensure informed consent
- 2
 - a) demonstrate awareness of epistemological, theoretical and ethical issues underpinning research;
 - b) demonstrate awareness of qualitative, quantitative and mixed methods designs and their strengths and limitations
 - c) more specifically, demonstrate your ability to carry out a short literature review; develop research questions; design a practice-based study; consider sampling and access issues; select the most appropriate methods to answer your questions; consider the ethical issues; provide participant information sheets and consent forms appropriate to your study and subjects.
- 3
 - a) design a research project proposal relevant to Social Work practice

Learning, Teaching and Assessment Strategy

Lectures, seminars tutorial, presentations from current Social Work and Social Science researchers, a Library searching session, guided and independent reading and lecturer input will support the achievement of all learning outcomes. To support you with your assignment, small group seminars will be offered plus individual tutorials. You will also receive written feedback on your initial project outline during the module. All of the Learning Outcomes for the module will be formally assessed through a 3000 word assignment.

Mode of Assessment
