Learning, Teaching and Assessment Strategy

Placement organisations will be responsible for designing a scheme of work for the student, giving initial training for the task(s) set and encouraging the student to work independently and take responsibility for the project(s) concerned.

Assessment will be by the employer's report confirming that the student has completed the requisite time. The placement report (5000 words) will demonstrate the student's knowledge and understanding of the host organisation within the heritage sector and the need for and value of the projects undertaken. It will also have a reflective element allowing the student to explore their own strengths and weaknesses. The poster allows the student to succinctly and graphically 'advertise' their placements as if within a conference environment and inform their peers of their experiences.
