Occurrence	Location / Period
BDA	University of Bradford / Semester 1 (Sep - Jan)

Module Aims
To develop an appreciation of audio and video theory within television production. Ability to analyse and understand different television genres. Awareness of importance of time allocation and limitations within broadcasting.

Outline Syllabus
Audio/video generation, acquisition and post-production mastering. Further video production skills. Production roles and TV journalism. Copyright and Compliance. TV scheduling and time allocation

Learning Outcomes	
1	understand the major technical, theoretical and production-based issues in television productions including copyright and compliance.
2	work in teams, to plan, script and make successful copyright cleared compliant television programmes; edit using Final Cut Pro
3	appreciate the importance of time management and effective team working . Be aware of and apply health and safety procedures

Learning, Teaching and Assessment Strategy
Lectures, group assignments working on audio/video projects. A video product, the supporting planning evidence and a timed test exercise are used to assess the student's appreciation of audio and video theory. Supplementary assessment: repair deficiencies in relevant failed areas of the module and may be required to repeat with attendance the relevant sections of the course.

Mode of Assessment				
Type	Method	Description	Length	Weighting
Summative	Coursework	Group video product	0 hours	40%
Summative	Coursework	Timed individual practical test	6 hours	40%
Summative	Coursework	Production folder	0 hours	20%
