Occurrence	Location / Period
BDA	University of Bradford / Non-Standard Academic Year

Module Aims
This module will support development of the NMC standards for pre- registration Midwifery education. It will enable students to take a lead in the holistic care of women & their families, throughout the childbearing continuum, with indirect supervision. Students will have the opportunity to expand & apply their clinical & transferable skills by the exercise of initiative & decision-making in the management of a personal caseload with minimal indirect supervision. This will consolidate their midwifery knowledge & skills & prepare them for transition to autonomous practice on registration.

Outline Syllabus
Competencies required achieving the NMC standards in effective midwifery practice, Professional and ethical practice, developing the individual midwife and others, and achieving quality care through evaluation and research. Effective midwifery practice in antenatal intrapartum and postnatal care (NMC 2009) NMC essential midwifery skills clusters (NMC 2009) Directive 2005/36/EC of the European Parliament and of the Council (2005) - Enhanced communication Initial consultation between the woman and the midwife Initiation and continuance of breastfeeding competencies required achieving the NMC standards in effective midwifery practice, Professional and ethical practice, developing the individual midwife and others, and achieving quality care through evaluation and research.

Learning Outcomes	
Outcome Number	Description
01	1.1.Critically appraise your own practice through structured reflection and feedback from women. 1.2.Critically apply knowledge and research evidence to personal practice
02	2.1.Within the framework of the NMC essential skills clusters maintain and develop competence to communicate and collaborate effectively across professional boundaries 2.2.Competently utilize the most appropriate information technology systems 2.3.Critically reflect on and demonstrate safe and sustainable midwifery practice within current legal and professional frameworks, with minimal supervision. 2.4 Utilize clinical governance procedures to evaluated practice, protect the public and manage untoward incidences
03	3.1.Apply initiative and personal responsibility 3.2.Make decisions in complex and unpredictable contexts 3.3. Demonstrate adherence to the NMC Student Guidance on Professional Conduct (2010). 3.4. Demonstrate time management skills by completing an e-portfolio (ORA) within set timeframes

Learning, Teaching and Assessment Strategy
This module will be delivered through full participation in community and hospital based midwifery practice. An allocated clinical mentor practice supervisors, with link lecturer support, will supervise and advise the student as they manage a personal caseload of childbearing women. Additional clinical support on managing complex situations will be available from an allocated Supervisor of Midwives senior midwives. Throughout the placement students will record and reflect on learning experiences in a web-based ongoing record of achievement (ORA). The ORA must be submitted to the module workspace at the beginning of the placement and must be kept up to date throughout the module. (LO 1, 2, and 3). Tutorial: The Link Lecturer academic assessor will provide formative feedback on the ORA at the Intermediate point (LO 3.4) Clinical Assessment: The final summative assessment is the culmination of a continuing assessment process. The student is graded on their achievement of module outcomes and essential skills, using a bespoke marking tool. Learning outcomes 1.1, 1.2, 2.1, 2.2, 2.3, 2.4, 3.1, 3.2, 3.3, will be assessed in practice (using marking tool criteria: team-working and communication, clinical skills and knowledge and professional and ethical practice, self-development and reflection). Learning outcomes 1.1, 1.2, 1.3, 2.1 3.4 will be assessed in the ORA (using SOHS portfolio level 6 marking tool). Completion of programme requirements which enable registration to the NMC register, in accordance with Directive 2005/36/EC of the European Parliament and of the Council (2005). This is a Pass/Fail assessment.

Mode of Assessment				
Type	Method	Description	Length	Weighting
Summative	Clinical Assessment	Continuous clinical assessment (all elements passed at 40%).	N/A	50%
Summative	Coursework	Completion of all e-portfolio - Ongoing Record of Achievement requirements (all elements passed at 40%).	N/A	50%
Summative	Clinical Assessment	Completion of programme requirements - Directive 2005/36/EC of the European Parliament and of the Council (2005)	N/A	0%
