Module Title	Practice Placement 6
Module Code	NUR5009-B
Academic Year	2021/2
Credits	20
School	School of Nursing and Healthcare Leadership
FHEQ Level	FHEQ Level 5

Contact Hours	
Type	Hours
Clinical Placement	240
Laboratories	3
Directed Study	37

Availability	
Occurrence	Location / Period
MYA	University of Bradford / Semester 1

Module Aims
You will further apply your knowledge of key public health priorities to the context of your placement setting. You will identify how national and public health policy impacts upon the local community including health promotion strategies utilised to support behaviour change for individuals within the family and/or community setting. You will demonstrate safe and increasingly competent nursing practice, knowledge, skills and professional behaviours required at Stage 2 progression point.

Outline Syllabus
Preparation for Practice: Screening Local 'communities' - health profiles and local priorities Public Health priorities by field - preventative health and empowering service users Clinical Skills & Simulation: Pain assessment and use of assessment tools; Assessment of conscious levels; Wound care Evaluation of placement learning and experience Collaborative working and communication with: Service users/carers/families & colleagues across professions/organisations Reflective Practice Forum (mid-point placement) - Professional Portfolio Development & PAD, Reflection in and on action, Review of placement learning and peer discussion - values, attitudes and beliefs influencing practice. Evaluation and feedback and student self-assessment, peer review Evidence based practice Safe administration and calculation of medication (Safe Medicate)

Learning, Teaching and Assessment Strategy

This module will further develop your independence, professional care and knowledge (LO 2.1, 3.1, 3.4) and practical skills within the placement setting. You will undertake planned, supervised and supported practice placement learning and be prepared to participate, initiate and manage your knowledge and understanding of the determinants of health and well-being within the context of public health (LO 1.1, 1.2, 1.3). Lectures, seminars, group discussion and directed reading from the associated improving public health module will build-on knowledge gained in the practice placement which will be applied to your field of practice and across professional boundaries (LO 2.2, 2.3, 2.4, 3.1, 3.2, 3.3). Small group, peer reviewed, simulated clinical skills teaching will enable you to practice skills in a safe and supported learning environment. Mapped NMC Essential Skills Clusters and Standards for Competence will assess your progress and learning and will inform your professional development & learning portfolio (LO 3.1, 3.4). The module will be delivered in collaboration with service users and practitioners within contemporaneous healthcare practice. The VLE will be used to provide access to online resources, lecture notes & external links to websites of interest. LOs 1.1, 1.2, 1.3, 2.1, 2.2, 2.3, 3.1, 3.2, 3.3, & 3.4 will be assessed by mode of assessment 1.

Los 1.1, 1.2, 1.3,, 2.2,2.3,2.4, 3.1,3.2, & 3.3 will be assessed by mode of assessment 2. LO 2.1 will be assessed by mode 3.

Mode of Assessment

Type	Method	Description	Weighting
Summative	Examination - MCQ	Safe Medicate Exam (must pass 0%)	0%
Summative	Clinical Assessment	EPAD	100%
