Type	Hours
Lectures	24
Tutorials	12
Directed Study	164

Availability	
Occurrence	Location / Period
BDA	University of Bradford / Semester 1
ONA	College of Banking and Financial Studies, Oman / Semester 1

Module Aims
This module seeks to extend the theoretical and practical aspects of financial management. The module focuses on a wide range of important financial management tools, techniques and underpinning theories relevant for decision making for business organisations in today's competitive financial environment. The rationale for the module is to provide students with the knowledge and skills necessary to understand the factors which impact on the making and implementation of financial decisions and to promote a critical understanding of how companies are valued.

Outline Syllabus
Investment appraisal and uncertainty EMH and market efficiency Cost of capital Gearing, debt and capital structure Corporate dividend policy Valuation of companies (Free Cash Flows, Book value, enterprise value, method of Multiples) Mergers and acquisitions Resource management/working capital management How to raise equity. Leasing. Agency costs and Corporate Governance

Learning Outcomes	
Outcome Number	Description
01	Knowledge and Understanding - 1a) Show a detailed understanding of the contexts in which financial management operates. 1b) Demonstrate the major theoretical tools and theories concerning financial management and their relevance to practical real-world issues. 1c) Demonstrate the use of the current technical language and practices of financial management.
02	Subject-Specific Skills 2a) Appreciate the practical limitations of theoretical concepts. 2b) Evaluate alternative sources of finance or alternative projects and make recommendations. 2c) Make accurate quantified investment and financial decisions.
03	Personal Transferable Skills 3a) Evaluate and interpret financial data and draw reasoned conclusions from a set of data. 3b) Apply numerical skills and manipulate financial data.

Learning, Teaching and Assessment Strategy
Knowledge disseminated in lectures on the theory and practice of the subject will be supported by tutorials based on set discussion topics where oral feedback will be given. The assignment will give opportunities to put into action the theory of the lectures and assesses all learning outcomes. Feedback is also given via on-line copies of tutorial solutions, via the discussion forum and through assignment review. This module has a pre-requisite of AFE4004-B.

Mode of Assessment			
Type	Method	Description	Weighting
Summative	Coursework - Written	Group coursework 2000 words	30%
Summative	Examination - Closed Book	Examination - Closed Book (2 Hrs)	70%

Please note:

This module descriptor has been published in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publication, but minor changes may occur given the interval between publishing and commencement of teaching. Upon commencement of the module, students will receive a handbook with further detail about the module and any changes will be discussed and/or communicated at this point.
