Learning, Teaching and Assessment Strategy
Cognitive and personal skills are developed in open-ended problem solving exercises, tackled by working in small groups supported by members of academic staff. Oral feedback is given during such sessions. Formative written assessment with feedback is used throughout the module allowing you to review and revise your learning. A summative written assessment is used to examine your understanding of the application of practical skills to the knowledge base of the module. Directed study time is available for you to: prepare for lectures and tutorials by accessing the directed reading material; engage in work with your teams in preparing problem-based exercises; undertake on-going review and revision of lecture and tutorial sessions; prepare for and reflect on the outcome of the formative and summative assessments. Teaching will utilise a combination of online and face to face activities.
