Module Aims
This module will record the episodes of care and medicine management that learners are required to complete as a mandatory part of their Foundation Degree (Science) Nursing Associate Apprenticeship Programme. Learners on this apprenticeship programme have a mandatory requirement to complete practice hours with a range of patient groups as well as off job hours. These must be completed alongside all modules comprising of 120 academic credits at levels 4.

Outline Syllabus
A requirement of the programme is that the episodes of care and medicine management must be completed by the end of the stage. This module will facilitate the confirmation that the sufficient progress has been made to meet these requirements in the first stage of study.

Learning, Teaching and Assessment Strategy
N/A

Please note:

This module descriptor has been published in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publication, but minor changes may occur given the interval between publishing and commencement of teaching. Upon commencement of the module, students will receive a handbook with further detail about the module and any changes will be discussed and/or communicated at this point.
