Module Aims
To examine and assess the concepts of scale, resilience and diversity in relation to a circular economy framework

Outline Syllabus
Transitions and adaptation within living and socio-ecological systems; Diversity and resilience within ecological systems; Complexity and the role of time and scale socio-economic- technical systems at different scales; Local scale - why it matters; Theories of development, the role of natural resources and alternative development pathways; Development and circular economy; Cities and the circular economy; Measures of growth and welfare; Regulation, wages and labour in a circular economy - why it matters; Diversity and resilience within financial and monetary systems.

Learning Outcomes	
Outcome Number	Description
01	Review and evaluate key concepts, principles and issues around diversity, scale and resilience within ecological and socio-technical systems
02	Relate the above to a range of different business applications and evaluate their potential relevance and scope for a range of settings including your own professional role and setting
03	Critically appraise a case study and assess its potential translation into a new or different setting of relevance to your professional role Personal transferable skills
04	Identify the relevance and potential importance of diversity, resilience and scale within your professional setting
05	Clearly communicate the role of diversity, scale and resilience to a business audience

Learning, Teaching and Assessment Strategy
You will engage in learning through a series of directed study activities and online tutorials. The study guide and textbook readings supported by audio recordings and power point slides will introduce important concepts. Structured tutorial exercises will provide you with the opportunity to develop your understanding of key concepts and ideas. Online tutorial sessions will enable you to engage in debate with your peers and tutor about important ideas and contemporary business problems. LOs 1-4 will be assessed through a single written assignment. The assessment will require you to demonstrate knowledge and understanding of diversity, scale and development.

Mode of Assessment			
Type	Method	Description	Weighting
Summative	Coursework - Written	Individual written assignment 2000 words	100%

Please note:

This module descriptor has been published in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publication, but minor changes may occur given the interval between publishing and commencement of teaching. Upon commencement of the module, students will receive a handbook with further detail about the module and any changes will be discussed and/or communicated at this point.
